Hey everyone,

No sign of any dark matter this month just some great uplifting breaks of all sorts to celebrate the sun coming out a bit more! We start off with some wonderful progressive breaks, eventually getting into the funkier side of things before rounding off with some great electro-infused breaks!

Included in the mix are 2 tracks from upcoming single on DSUK "Insane" which is OUT NOW @ Beatport and everywhere else!

As always, the show was a pleasure to do and hopefully there will be some new stuff in the mix you haven't heard before and remember, all tracks are (or will soon be) available from your favourite download stores so please support the artists and labels if you like what you hear.

Thanks for listening and for your support - see you next month!
