Glue @ The Horse & Groom, Shoreditch, 24th July 1st Birthday

So Glue is one year old and we'll be celebrating in style with one of our best lineups to date! Headlining are 601, hailing with the wild lands of the north these boys made it big in the breaks scene and have since expanded into a range of styles and an awesome live show. However at Glue they'll be gracing us with a rare DJ set, no doubt full of classic tunes, fresh new cuts and a few of their own tracks.

And helping out are Hubie who'll be dropping his usual mix of tastefully selected eclectic numbers and Milky Joe, radio superstar and DJ icon who'll be taking Bump's usual slot and getting the crowd warmed up with some jumping breaks and thumping techno.

And as always Glue's resident, Hell Yeah, will be ending the night with his very own blend of electro, breaks and rave noise which always goes down a charm.

You can check out all the details on our myspace along with links to all the DJs' pages - http://www.myspace.com/glue_london

Then visit the facebook event here - <http://www.facebook.com/event.php?eid=134810509880058>

And remember it's on the 24th July, 9pm to 4am, at the Horse & Groom in Shoreditch, London. Remember it's free before 10 so get there early! Though if you do miss out it's only £4 after which we think is a small price to pay!

Full Lineup:
