Yo!

On 11th June I'll be hosting a guest mix from the one and only beatmeister Mr DANNY REJECT!! (Reject Beats & NSB).

Mr Reject has spent many an hour on the airwaves dropping the latest and greatest in breakin boom and generally making working in my office much less painful, so I thought it'd be kinda groovy if you guys could get a load of his funk nuggets too..

so aye, the head honcho of the awesome groove collective "Reject Beats", yes that lot wot make good boom from colchester) who has appeared alongside our scenes grandmasters on many an occasion, and is most definately no stranger to dancefloor obliteration will be hitting SugaThomp! this week

werd

may the funk be with you ;)
